FAMOUS AUTHORS THAT ARE NOT READ. It is far from my intention to question the

National Republican.

absolute merits of the principal works of the men whose names are canonized in modern literature. Those merits, I unreservedly admit, to know is, admitting as we all do, that they are transcendently superior to the works of modern writers, how is it they are not read? Would any one having a reputation to preserve venture to rise in critical company and declare his preference for Thackeray over Fleidings I know I would not, although Richardson, with Dr. Johnson's approval, sneered at Fielding, and said, "if he had not known who the writer of 'Tom Jones' was, he would have thought it was an 'ostler." Yot, writing here anonywas an 'ostler." Yet, writing here anonymously, I do not mind confessing that though
I have read "Tom Jones" once, I have read
"Vanity Fair," half a dozen times. It is an
added perplexity for the houest inquirer to discover that, of the writers whom he knows he
ought to revere, if not to read, some are apoken
of with disrespect in very high quarters.

If we believe Plato, Homer was not such a
great writer after all, and of Plato himself Mr. If we believe Plate, Homer was not such a great writer after all, and of Plate himself Mr. Lowes remarks that "he is a tedious and difficult writer, often quoted at second hand, but very rarely read. Men of culture usually attack a dialogue or two out of curiosity; but their curiosity seldom inspires them to further progress." Sophocles was seriously regarded as a lunatic by his own children, who ought to have known something about him. Aristoas a lunatic by his own children, who ought to have known something about him. Aristophanes mercliessly chaffed Socrates, while Atheneus attempts to prove that the great teacher was himself tilliterate. Virgil was declared by Pliny to have stolen such slight boauties as his poems may display. Quintilian says Seneca was no great shakes; Cleero and Plutarch are both down on Aristotle; Demosthenes is pooh-poohed by Hermippus; and of Cicero it has been written that he is "cold in his excremporaneous effusions, artificial in his exor-temporaneous effusions, artificial in his exorit has been written that he is "cold in his ex-temporaneous effusions, artificial in his exor-diums, trifling in his strained raillery, and thresome in his digressions."

Coming down to the gods of our own house-hold, flors it not make the hair stand on end to find Tom Moore declaring that he found Chaucer "unreadable!" Lord Lansdowne said he was secretly of the same complex but did

find Tom Moore declaring that he found Chaucer "unreadable" Lord Lausdowne sald he was secretly of the same opinion, but did not dare to speak of it. "A. E. H. B." writes, "I would rather read Mr. Helps than Milton." "What will you say," writes Lord Chesterfield, "whea I tell you that I cannot possibly read our countryman Milton through! Keep the secret for me, for, if it should be known, I should be abused by every tasteless pedant, and every solid divine in Europe." Charles Lamb says, "Milton almost requires a solemn service of music to be played before you enter upon him," which, not to put too fine a point on it, is an inconvenient requirement in a favorite author. Even Shakspeare has not been spared. Ben Jonson, "rare Ben Jonson"—rarest of all in the matter of readers—began it with the repartee to Shakspeare's admirer, who boasted that the great bard had never blotted out a single line he wrote. "Would that lie had blotted a thousand!" said Ben; and Mr. Samuel Rogers (whom everybody knows as the author of that charming, but never read, posm, "The Pleasures of Memory.") was very foud of repeating the joke, believing that Shakspeare was a greatly overrated man. "Well, after all, Tom," said Byron to Moore one day, "don't ven tifut Shakspeare was anothing of a hum. repeating the joke, believing that Shakspeare was a greatly overrated man. "Well, after all, Tom," said Byron to Moore one day, "don't you think Shakspeare was something of a humbug?" I have quoted Voltaire's eathing remark about Dante. "Can you read Voltaire's "Henriade?" asked Mr. Senior of De Tocqueville. "No, nor can any one else," was the prompt reply, Once at Abbotsford it was remarked, in Sir Walter Scott's presence, that the appager had never known any one who had marked, in Sir Walter Scott's presence, that the speaker had never known any one who had read the "Henriade" through. "I have read it and live," replied Sir Walter, "but indeed in my youth I read everything." Mrs. Browning humbly confesses that she could never read to the end of Akenside's "Pleasures of the Imagination." Emerson was equally lacking in appreciation of this highly respected man, and so was Dr. Johnson. "Sir, I could not read it through," he says, when Boswell refers to "the distinguished poem." "I see they have published a splendid edition well refers to "the distinguished poem." "I see they have published a splendid edition of Akeuside's works, he proceeds: "One bad ode may be suffered, but a number of them together makes one sick." Dr. Johnson had, indeed, a painfully reckless way of tweaking the noses on the inonumental figures in our literary Walhalla, and I reflect with sorrow on the fact that "London: a poem." "Rasselas," and "The Rambler," are to day so little read, though I described. Bozzy's venturing to express "astonishment a so strange an assertion," he was good enough to explain: "What I mean by his being a block
